# Fellowes®

# What's New, What's Hot
# 2014

Welcome to the **What's New, What's Hot Guide 2014 from Fellowes** – your at-a-glance overview of our latest products, innovations and new technologies designed to offer superior quality, comfort and security to your consumers and deliver growth and opportunities for your business.

## CONTENTS

## 2014 HIGHLIGHTS INCLUDE:

### Leave Your Shredding to the Experts -

Introducing the AutoMax™ 300C and 500C truly walk-away shredders featuring Fellowes unique SureFeed™ technology which means AutoMax™ continues where others stop – see page 4 & 5.

### Perfect Lamination Without The Wait -

With the Venus 2, Jupiter 2 and Neptune 3 laminators featuring Fellowes InstaHeat™ technology you can be ready to laminate in as little as 30 seconds. What are you waiting for? Turn to page 9 for more details.

### Be Inspired... Wherever You Work -

With the I-Spire Series™ range of office accessories from Fellowes. Turn to page 19 to see how you can turn any office into a stylish workspace.

### Maximum Protection for the Air We Breathe -

With the AeraMax™ range of Air Purifiers featuring AeraSmart™ Sensor technology. See page 21 to discover our exciting new range.

### The Strongest Chioce -

New additions to our storage and organisation category designed to offer you the right solutions. See page 24.

### Opportunity dot com -

See page 30 to catch a glimpse of just some of our innovative digital marketing tools featured on fellowes.com and available for your site.

**Remember to visit fellowes.com to see more details of our latest innovations, product videos and tools as well as our full range of products.**

# the **smarter** way to shred

**100% JAM PROOF**

**JAM BLOCKER**

**SAFE SENSE TECHNOLOGY**

**ENERGY savings system**

**SilentShred™ Performance**

When you invest in a Fellowes® shredder, you are getting more than a tough machine. From advanced jam prevention to enhanced safety, our proprietary innovations make shredding hassle-free. Behind every Fellowes® shredder is our commitment to offering the highest standard of quality, performance and a smarter way of shredding.

# Introducing Fellowes AutoMax™

# Leave your shredding to the experts.

Now there's a smarter way to shred. Let Fellowes AutoMax™ take care of your shredding whilst you take care of your business.

## Continues where others stop:

- Paper sheets
- Staples
- Standard paper clips
- Credit cards
- CD/DVD
- Junk mail
- Crumpled sheets
- Folded sheets
- Double-sided colour prints
- Glossy paper

Fellowes, the manufacturer of the World's Toughest Shredders is proud to introduce the AutoMax™ 300C and 500C, the first truly walk-away line of shredders. Featuring proprietary SureFeed Technology, the AutoMax™ series means you don't have to waste time sorting, straightening or filtering your papers and junk mail. You simply load it, push the button and walk away. Fellowes – the smarter way to shred.

**1** Load  **2** Lock  **3** Walk-away

**surefeed** TECHNOLOGY

## The AutoMax™ Walk-Away Advantage
Automatic shredding for maximum productivity - truly walk away!

**JAM GUARD SYSTEM™**
Prevents shredding interruptions for jam free operation

**SMART LOCK**
SmartLock™ automatically locks the paper drawer when shredding to prevent access to paper waste

**Sleep MODE**
Powers down the machine after 2 minutes of inactivity

**CONTINUOUS DUTY SHREDDING**
Ideal for high volume shredding – always ready for operation

**SilentShred™ Performance**
Minimises noise disruption in shared working environments

# Choosing the right laminator

Fellowes laminators are segmented on usage; how often they are used and the thickness and size of pouch they accept. Whether the machine is for a large office multi-user environment or a personal home use requirement, there is bound to be a reliable Fellowes quality solution to meet the needs of the user.

## Office

Fellowes large office laminators take user-friendliness to a new level, combining high quality 4 and 6 roller laminating with user-valued innovation and award-winning design

# Choosing the right cutter

Fellowes® SafeCut™ Paper Trimmers & Cutters are designed to offer more features than other trimmer lines, including increased capacity, ease of use and cutting precision. Our robust trimmers with exclusive SafeCut™ technology also ensure hands never touch the blade to protect users during loading or operation. It all adds up – more features plus enhanced safety technology equals exceptional performance and a better value.

## Rotary Trimmers

High quality and engineered for safety and precision; ideal for cutting thin materials

Ergonomics Expert
### Tired of back tension?

Sitting in a chair without proper support can cause poor circulation, back discomfort, and overall fatigue. If your chair does not provide proper lumbar support, use a foot and back support together with a posture manager to maintain correct posture.

## AVOID WRIST PRESSURE

**Prof Ergo**
Your Personal
Ergonomics Expert

### Wrist pressure a problem?

Typing on a keyboard or laptop, for hours at a time, can cause pain and discomfort to your wrists. As well as using a separate keyboard with a laptop, using wrist supports can help to align your wrists, helping to redistribute painful pressure points, relieving pain and discomfort and preventing potential injury.

# Looking to reduce your staff absenteeism? **The answer is in the air…**

## NEW

## AeraMax™ Air Purifiers

**Maximum protection** for the air you breathe.

Recent research shows that 69% of employees describe their office environment as unhealthy*. Viruses, bacteria, unpleasant smells, allergens and other airborne particles all contribute to illness and absenteeism. **Reduce the number of these particles from your shared air and breathe new life into your workforce.**

| VIRUSES | DUST & DUST MITES | GERMS | POLLEN | OTHER ALLERGENS |
|---------|-------------------|-------|--------|-----------------|

- True HEPA Filter safely removes 99.97% of airborne particles.
- AeraSmart™ Sensors automatically remove allergens and viruses from your air.
- Ultra quiet and energy efficient, designed for all day use… just switch on, leave and breathe in the benefits.

**AeraSmart™ Sensor** — Monitors air quality to automatically purify your air

# Clear Air™

## Fellowes™ Clear Air™ filters for laser printers, fax machines and photocopiers

The Fellowes Clear Air™ Fine Dust Filter reliably captures particles emitted from laser printers, fax machines, photocopiers and multi-function machines, ensuring the air in your office remains clear. It uses micronAir® Office technology to constantly filter even the smallest particles (up to 94%*), ensuring that the air remains free from potentially harmful toner dust and other fine dust particles. TUV NORD has confirmed the effectiveness of the filter.

*94% max: The average filter performance for particles between 0.0001 and 0.002 mm in is 85% to 94% at a maximum filter flow rate of 2m/min.

**Records Management** | **Getting Started**

# Your information is a vital asset

Businesses revolve around documents – contracts, correspondence, orders, reports, and much more – that record all types of activities. Even the smallest companies are required to keep records (for accounts, audit, tax, pensions, Health & Safety purposes etc). Records Management can be a vital asset, but only if documents can be easily found or accessed. Failing to keep accurate records for the required period of time or being unable to locate them could lead to business failure.

## A good records management program can help you improve your business results:

- The systematic disposal of records will prevent costly paper accumulation and free up valuable space.
- Your company will be protected from accidental or premature destruction of records.
- Reference retrieval will be faster – less time will be spent waiting for information.
- Purchases of excessive office filing equipment will be avoided.
- Potentially crippling breaches of corporate security will be safeguarded against.

**ACTIVE**

**DISPOSAL**

**SEMI-ACTIVE**

**ARCHIVAL**

There is a product for every stage of a document's life

### The Four Stage Records Management Life Cycle.

Use the Records Management Life Cycle to choose the product to best suit your needs. As soon as someone decides to keep a piece of information a documents lifetime has commenced.
The lifetime of a document can be classified in the following ways:

**1. Active** — Information that is frequently referred to.

**2. Semi-Active** — Information that is not regularly used but has to be kept e.g. for legal reasons.

**3. Archival** — Information that has a long term, probably historical value.

**4. Disposal** — Destruction by shredding then recycling.

**How to Choose** | **The Solutions**

# Choose THE RIGHT SOLUTION for you

## Key questions to consider

- What are you planning to file and store?
- How often are records accessed?
- Are boxes moved regularly?
- Is space a critical factor?
- Are products required that are stackable?
- Are your boxes stored on shelving systems?
- Does your organisation call for environmentally friendly products?

## INTRODUCING OUR NEW GREEN$_2$DESK RANGE

**Green$_2$Desk products are designed with the aim to reduce their environmental impact to the minimum level throughout their whole life cycle by:**
- Minimizing environmental resources consumption, waste and emissions during the production
- Designing smaller, modular and compactable products in order to reduce transport and storage impact
- Using recycled & recyclable materials whilst maintaining the strength and durability of the product

## Maximise Your Sales with Fellowes Online Marketing Support

**1.** E-commerce is growing. Fast. Especially in Europe, the world's largest e-commerce market. In 2012 online revenue grew by around **22%** in Europe

**2.** The internet also drives offline sales. Many people like to research online and then purchase offline (ROPO) – 4 out 10 retail shoppers in Europe buy this way and they are more likely to spend up to **33%** more than someone who doesn't go online first

## Fellowes.com

Connecting with consumers, encouraging trade up and driving sales to you

- **68%** of business consumers will look at the manufacturers website when looking to buy a product which is why we make fellowes.com a focal point of our marketing activity

- fellowes.com generates up to **12,000** leads per month via our Buy Online feature*. If you're not connected yet, you could be missing out on sales opportunities – contact your Fellowes representative today to find out more

*currently available on
UK/IE/NL/BE/DE/CH/FR/IT/ES/PL/CZ/AT sites

# Fellowes Web Sales Toolkit.

A 3 step process designed to help you maximise your online sales including:

## Videos

- **85%** of browsers are more likely to buy after viewing a product video

## Selectors and Showcases

- help your consumers find the right product for their needs and encourage trade up with Fellowes range of interactive product selection tools

## Banners, Ads, Landing Pages and More

- from online display and pre-roll advertising to static banners, keyword lists, qr codes and emailing templates, we have a wide range of tools to help you boost your sales and marketing activity

## Fellowes What's Hot, What's New ipad

- A perfect tool for your sales team to really showcase the benefits of Fellowes products. Complete with videos, images and demo's, the What's Hot, What's new app is designed to make selling Fellowes products even easier. Available in English from January 2014
