Screwdriver

## WHAT TO DO

Explore your new home. Familiarize yourself with light switches and the different spaces and sounds.

Take photos. Have "before" photos so you can enjoy the progress you made after you settled in. Photos will also be handy to have as you consider decorating ideas or space for new furniture.

Enjoy and relax. It might be tempting to pull an all-nighter cleaning and unpacking. Instead, take some time for yourself. Draw a bath, take a hot shower, unwind and get plenty of rest!

Keep an inventory of total boxes packed to ensure everything arrives safely.
