LIMITED PRODUCT WARRANTY

Limited Warranty: Fellowes, Inc. ("Fellowes") warrants the parts of the machine to be free of defects in material and workmanship and provides service and support for 3 years from the date of purchase by the original consumer. If any part is found to be defective during the warranty period, your sole and exclusive remedy will be repair or replacement, at Fellowes' option and expense, of the defective part. This warranty does not cover damage caused by use of non-Fellowes approved filters or failure to follow the recommended replacement schedule. This warranty does not apply in cases of abuse, mishandling, failure to comply with product usage standards, operation using an improper power supply (other than listed on the label), or unauthorized repair. Fellowes reserves the right to charge the consumers for any additional costs incurred by Fellowes to provide parts or services outside of the country where the air purifier is initially sold by an authorized reseller. This warranty does not include the air cleaner's replaceable filters, this is an expendable part that can wear out from normal use before three years expire. ANY IMPLIED WARRANTY, INCLUDING THAT OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, IS HEREBY LIMITED IN DURATION TO THE APPROPRIATE WARRANTY PERIOD SET FORTH ABOVE. In no event shall Fellowes be liable for any consequential or incidental damages attributable to this product. This warranty gives you specific legal rights. The duration, terms, and conditions of this warranty are valid worldwide, except where different limitations, restrictions, or conditions may be required by local law. For more details or to obtain service under this warranty, please contact us or your dealer.

PACKAGE CONTENTS

- Fellowes® AeraMax™ Air Purifier
- Combination Active Carbon filter/True HEPA filter (2 filters)
- Pre-filters (4)
- Instruction Sheet
- Survey Card

SAFETY INSTRUCTIONS

Thank you for purchasing a Fellowes® Air Purifier. Please read this manual carefully before using. This product is for indoor use only.

IMPORTANT CAUTIONS AND INSTRUCTIONS FOR USING YOUR AIR PURIFIER

WARNING: Follow the instructions in this manual to reduce the risk of electric shock, short circuit, and/or fire:

- Do not repair or modify the unit unless specifically recommended in this manual. All repairs should be completed by a qualified technician.
- Do not force the plug into an electrical outlet.
- Do not alter the plug in any way. If the plug does not fit into the outlet, reverse the plug. If it still does not fit, contact a qualified technician to install a proper outlet.
- Do not use if the power cord or plug is damaged or the connection to the wall outlet is loose.
- Do not damage, break, forcefully bend, pull, twist, bundle, coat, pinch, or place heavy objects on the power cord.
- Periodically remove dust from the power plug. This will reduce the chance that humidity will accumulate, which increases the risk of electric shock.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.
- Remove the power plug from the outlet before cleaning the unit. When removing the power plug, grasp by holding the plug itself, never hold by the cord.
- Remove the power plug from the outlet when the unit is not in use.

- Do not handle the power plug with wet hands.
- Do not operate the unit when using indoor smoke-generating insecticides.
- Do not clean unit with benzene or paint thinner. Do not spray insecticides on the unit.
- Do not use the unit where it is humid or where the unit may get wet, such as in a bathroom.
- Do not insert fingers or foreign objects into the air intake or outlet.
- Do not use the unit near flammable gases. Do not use near cigarettes, incense, or other spark-creating items.
- Unit will not remove carbon monoxide emitted from heating appliances or other sources.
- Do not block the intake or outlet vents.
- Do not use near hot objects, such as a stove. Do not use where the unit may come into contact with steam.
- Do not use the unit on its side.
- Keep away from products that generate oily residue, such as a deep fryer.
- Do not use detergent to clean the unit.
- Do not operate without a filter.
- Do not wash and reuse the True HEPA Filter.
- Do not run power cord under carpets or cover with throw rugs.
- When moving machine, always lift using handle.
- Do not place objects on top of the air purifier.
- Do not use air purifier with an extension cord.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- Warning: Not suitable for use with solid-state speed controls.
- For floor use only.

Warning

Any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

AIR PURIFIER FEATURES

• Ultra-Quiet Operation

This Fellowes AeraMax™ Air Purifier has a four-speed fan with ultra-quiet operation that is ideal for 24 hour use.

• Easy Maintenance

For optimum performance, replace the Combination Filter when the screen is flashing "END" or approximately every 24 months under normal usage conditions.

• AeraSmart™ Sensor

This air purifier is equipped with an air quality sensor that automatically adjusts the fan speed to keep your air purified

• Four-Speed Setting

From 1 for quiet, energy-efficient operation to 2 for the most effective cleaning.

• Replacement Filter Indication

Flashes "END" to indicate when to replace the True HEPA Filter and Carbon Filter, depending on usage.

THREE-STAGE PURIFICATION SYSTEM

Removes 99.97% of airborne pollutants.

• Carbon Filter

• True HEPA Filter

• Prefilter

AIR PURIFIER SET-UP

NOTE: Follow these instructions for best results.

- Place unit at least 2 feet (½ meter) from the wall.
- Keep unit away from drafty areas.
- Keep curtains away from unit, as they may interfere with air intake/outlet.
- Place unit on a stable surface with plenty of air circulation.

1. Remove protective film from the control panel.

2. Open filter doors

3. Take out filters and remove plastic filter bags.

4. Place filters HEPA-side-out and slide them in until fully seated back in the machine.

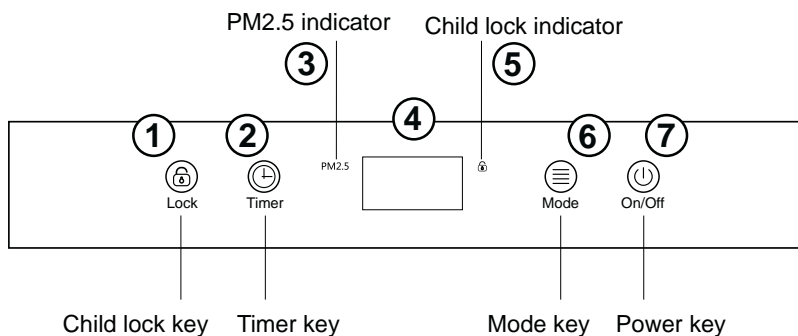

5. Close filter doors securely by inserting the two tabs on the bottom of the door first and then pivoting it closed. Repeat for both doors.

6. Plug in the power cord to a wall outlet.

7. Turn unit on. Unit will beep, go into AUTO mode, and display PM2.5

DISPLAY PANEL

- 1. CHILD LOCK** - Press the LOCK button for 3 seconds to activate the child lock function. The child lock indicator LED will light up and all keys will be non-functional until unlocked except the LOCK key.

Once locked, press the LOCK button for 3 seconds to deactivate the child lock function. The child lock indicator LED will turn off and all keys will function normally.

- 2. TIMER** - Press this button once to check the current status of a timer, which will display hours left on screen. If there is no timer, the screen will display "OFF".

Continually pressing the TIMER button will select between timer settings from 1 to 12-hours in 1-hour increments to turn off the machine. Staying at a timer setting for 3 seconds will select it and the PM2.5 will again be displayed.

Continuing to press TIMER until the screen says "OFF" will cancel the timer. The timer will also be turned off if the machine is powered down.

- 3. PM2.5** - this will light up when the display is showing the PM2.5 air quality reading.
- 4. DISPLAY** - This display will show the MODE, TIMER, SLEEP and FILTER CHANGE readouts.

5. CHILD LOCK INDICATOR

- 6. MODE** - Press this button once to display the current machine mode. Continually press it to cycle between fan speed 1, 2, 3, and 4, SLEEP mode, and AUTO mode. Stay at the same mode for 3 seconds to select it and the PM2.5 will again be displayed.

In AUTO mode, the PM2.5 smart sensor will automatically select the fan speed based on air quality readings.

At fan speed 1, 2, 3 or 4, the unit will run constantly at the corresponding speed.

In SLEEP mode, the purifier will run on fan speed 1, and all lights are off except a dimmed power light.

- 7. POWER** - When unit is plugged in, the unit will automatically enter standby mode and the POWER button will be dimly lit.

Press this button when in standby mode to turn on the unit. All keys will light up and the machine will go into AUTO mode if no other input occurs within 3 seconds.

While the unit is on, press this button to put the unit back into standby mode. The unit will beep once during this process.

OPERATION

AUTOMATIC OPERATION

The unit is set to default to automatic operation when it is first turned on. The air purifier will automatically sense the amount of impurities in the air, and adjust the fan speed to keep your air purified.

MANUAL OPERATION

After you turn on the unit, you can switch to manual operation by tapping the MODE button.

• FAN SPEED 1, 2, OR 3

These levels are recommended for standard daytime use. Fan speed 4 will activate automatically when sensors detect poor air quality.

• FAN SPEED 4

Fan speed 4, the highest fan speed, can be activated manually for maximum air purification.

PM2.5

Air quality indicator shows levels of air quality on the display screen.

CARE AND MAINTENANCE

CLEANING

- Clean unit as necessary by wiping with a dry, soft cloth; for stubborn stains, use a warm, damp cloth.
- Do not use volatile fluids such as benzene, paint thinner, or scouring powder, as they may damage the unit surface.
- Keep the unit dry.

Filter Replacement

The screen displaying "END" will signal when to replace the Combination Filter. The replacement period will vary depending on the hours of use and air quality. However, under normal usage, they will need to be replaced every two years.

Do not wash and reuse the True HEPA or Carbon Filters—they will not work effectively. Only use Fellowes brand AeraMax™ replacement filters.

WARNING: Before replacing any filters, make sure to remove the power plug from the wall outlet.

Replacement Procedure

1. Open filter doors.

2. Remove and dispose of old filters.

3. Remove any packaging wrap from the new filter(s).

For replacement filter part numbers, see page 4.

4. Place the new filters in the main unit. Place filters HEPA-side-out and slide them in until fully seated back in the machine.

5. Close filter doors securely by inserting the two tabs on the bottom of the door first and then pivoting it closed. Repeat for both doors.

6. To reset the filter timer once a Filter is installed:
 - a. Be sure that drawer is closed.
 - b. Turn on the unit.
 - c. Press the LOCK and TIMER buttons at the same time for 3 seconds. This will make the display stop saying "END" and reset the filter life timer.

TROUBLESHOOTING

Before you call

Solutions to Common Problems

Review this list before you call for service. This list covers problems that are not the result of defective materials or workmanship.

PROBLEM	POSSIBLE SOLUTION
The unit leaves smoke and odors in the air.	<ul style="list-style-type: none">• Make sure the sensor is not blocked or clogged.• Move the unit closer to the offending odors.• Replace the filters as needed.
The unit seems to produce odors.	<ul style="list-style-type: none">• Replace the filters as needed.
The air quality control system fails to start.	<ul style="list-style-type: none">• Check to assure unit is connected to power supply.• Make sure the filter door is closed completely.• make sure the unit is plugged in properly.• make sure the unit is on.
The unit interferes with radio or television reception.	<ul style="list-style-type: none">• Because this unit radiates radio frequency energy, we suggest you try one or more of the following:<ul style="list-style-type: none">- For better reception, adjust the television/radio antenna.- Move the unit away from the affected television/radio.- Plug the unit power cord into an outlet different from the television/radio power cord.
Display continues to show "END"	<ul style="list-style-type: none">• Repeat filter light reset instructions from page 8
Weak air output	<ul style="list-style-type: none">-Make sure plastic bag was removed from filter-Turn off machine and check that nothing is blocking the air outlet or intake
