## **Levado™ Height Adjustable Desk Wins FX International Interior Design Award**

The Levado height adjustable desk from Fellowes Brands has been recognised as the winner of the Public, Leisure or Office Furniture category in the FX International Interior Design Awards 2021.

The FX Awards invite international design talent across the world to enter the very best of their interior products and projects. Organised by FX Magazine, these coveted awards are one of the highlights of the design industry calendar.

Fellowes' in-house Horizon Design Studio designed the Levado height adjustable desk. Created for the modern office, the Levado base comes in a single piece for easy assembly in around 90 seconds. The base can flexibly fit work surfaces from 1200 to 1800mm in width.

Levado provides users with versatile, height adjustable working through the premium Feather Lift™ control paddle. This features four programmable memory settings that quickly adjust with a lifting capacity of 100kg.

The Levado height adjustable desk brings more movement to a user's working day at the touch of a button, enabling quick and easy changing between sitting and standing positions which in turn encourages active working.

James Webb, Vice-President Central Europe and EU Marketing, Fellowes Brands, said: "We are delighted to receive this prestigious award and see the extensive design capability within Fellowes Brands recognised. This is a great reflection of our determination to help people be healthier, happier and more productive at work."
