Fellowes
Brands™

Fellowes Brands provides solutions for both the home and workplace that allow users to perform at their best.

Founded on a culture of continuous improvement, we strive to deliver best-in class quality and performance in records storage solutions, business machines, workspace management products and air purification.

OUR BRANDS

Fellowes provides workspace solutions with a superior experience enabling you to work better. Our range of shredders, binding and laminating products plus our range of wellness products are thoughtfully designed, reliable products that work effortlessly everytime.

Bankers Box® is the original brand that provides confidence your contents are organised and protected. Since 1917 we have been the market leader synonymous with strength and quality and we continue to innovate with our new line of mailing, shipping and moving products.

AeraMax® air purifiers provide hassle free cleaning to help you confidently provide a healthier environment to those that you care for. Its four stage filtration system removes up to 99.97% of harmful germs, viruses and allergens while its responsive technology provides confidence it works as needed.

Fellowes GIVE program is dedicated to building local and global partnerships which address humanity's greatest needs. The programs' guiding principles align with our strong values as a company and focus on four key areas: Social Services, World Aid and Development, Education and Cancer Research. We are honored to work as a team in building strong communities, improving lives, and providing a better tomorrow for our world today.

PRODUCT INNOVATIONS FOR 2018

Workspace Management

Sit-Stand Solutions - Fellowes have a long history in the development of ergonomic solutions and as we continue to evolve we are pleased to launch a range of sit stand solutions that allow users to add movement into their working day.

Monitor Arms - In a fast paced business world productivity is key and the use of multiple screens is now becoming the norm as consumers seek to speed up processes and also multi-task. In response to this growing demand Fellowes is rapidly expanding its assortment with a range of free standing, desk, wall mount that can accommodate up to three monitors at a time.

Shredders

Micro-Cut - Designed to meet the need for increased security Fellowes have launched a number of new Micro-cut products which are ideal for highly confidential paper waste and greater peace of mind.

AutoMax™ - We are pleased to launch 2 new autofeed machines with our unique Accufeed technology. The hands free, truly walk-away shredding experience now lets you get back to business faster.

Binding and Laminating

Admire™ Pouches - Our new range of Easyfold, Stylish Matt and Adhesive pouches now give users a variety of different ways to present their lamination.

Advanced Pouch Tracking System™ - This new feature detects potential paper jams and automatically reverses, allowing the user to re-align the pouch.

Storage and Organisation

SmoothMove™ Moving and Storage Boxes - With this new line you will experience innovative, tape-free design with FastFold® easy assembly. See our full line of moving box and storage box solutions to meet your needs!

Missive - Our new range of Missive mailing products come with clear labelling areas and are strong and easy to assemble. Our comprehensive range means that we have the right combination of mailing products for both your personal and business needs.

SHREDDERS

Why shred?

Identity fraud is a risk to all of us, both as individuals and as businesses, simply because we deal with so many pieces of information on a daily basis. To criminals, a discarded bank statement or photocopy of a passport could be enough to allow them to start building up a picture of you, your customers or your business and eventually can lead to them stealing your identity. Despite increasing awareness of the threat of identity fraud, data breaches are still a frequent occurrence.

What to shred?

It's not difficult to determine what you should shred. Essentially, any paper document, expired credit card or CD/DVD containing personal, company or financial details should be shredded prior to disposal. Experts agree that one of the best ways to keep your identity safe is to shred all potentially sensitive paper waste before you put it in the bin.

Choosing the right shredder

Fellowes have made selecting the right model easy; according to run time, where the shredder will be used and security level. Consider the following when selecting the most appropriate shredder for your needs:

USAGE: Where and how often will the shredder be used?

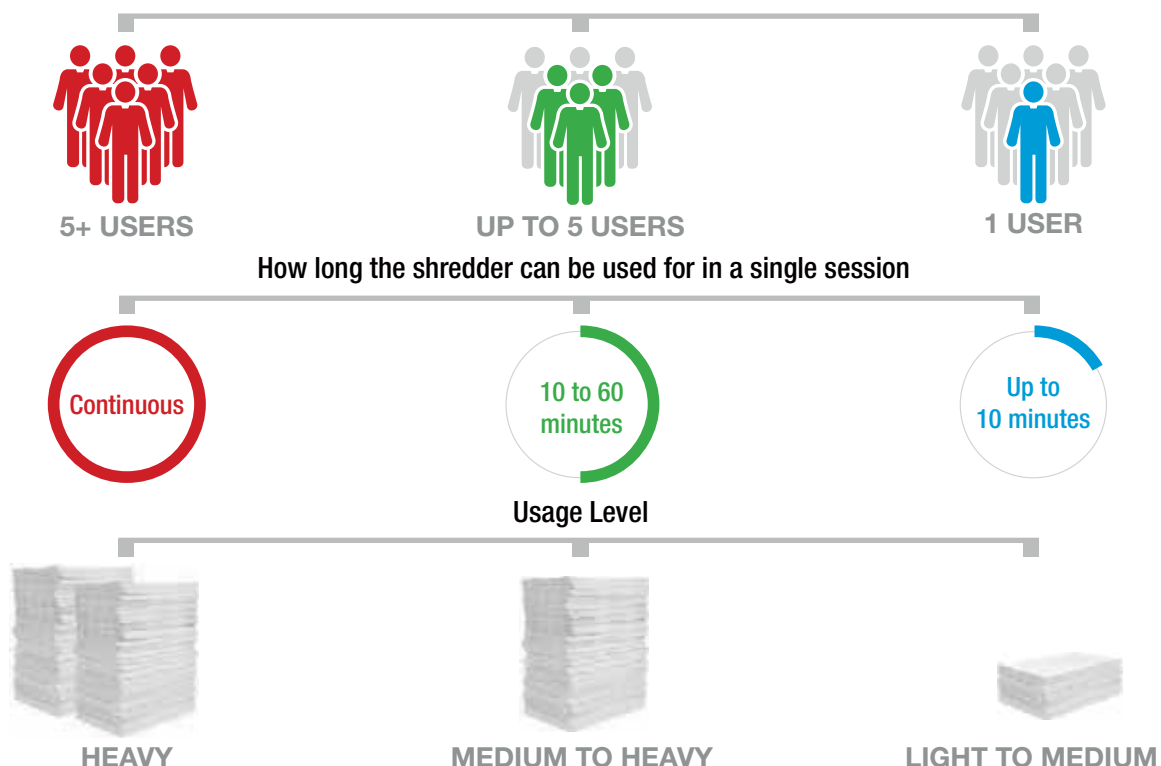

Designed for multiple users and shared workspaces, such as printing / copy areas and open plan offices.

Designed for 1-3 or 3-5 users at the deskside or in the small office.

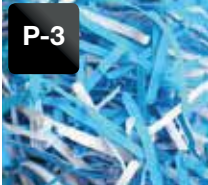

Designed for individual users in the office or home environment.

Shredders

PARTICLE SIZE: What level of security is required?

A strip cut shredder is ok, but it is recommended to shred with at least a cross cut shredder (DIN P-3 or P-4), which will shred each A4 sheet of paper into as many as 410 pieces. The images give examples of the levels of protection available, from the most basic strip-cut to the dust-like particles of the high-security shredders. DIN levels P-3 to P-5 should be suitable for the majority of users.

					
0.8 x 5mm - approximately 15,000 particles per A4 sheet 			HIGH SECURITY DIN LEVEL P-7 For strictly confidential documents requiring security precautions of the highest level		
0.8 x 12mm - approximately 6,000 particles per A4 sheet 			SUPER MICRO-CUT DIN LEVEL P-6 For high level security requirements e.g. government		
2 x 15mm - approximately 2000 particles per A4 sheet 			MICRO-CUT DIN LEVEL P-5 For highly confidential documents. Virtually impossible to assemble and read		
4 x 38mm - approximately 410 particles per A4 sheet 			CROSS-CUT DIN LEVEL P-4 For confidential documents. Difficult to assemble and read		
4 x 50mm - approximately 312 particles per A4 sheet 			CROSS-CUT DIN LEVEL P-3 For confidential documents. Difficult to assemble and read		
5.8mm - approximately 36 strips per A4 sheet 			STRIP-CUT DIN LEVELS P-1 & P-2 Offers basic document security		

* The above mentioned security levels are based on DIN 66399 and only refer to paper destruction

FEATURES: Which of the following features are required?

 100% JAM PROOF Eliminates paper jams AND powers through tough jobs	 JAM BLOCKER™ Blocks jams before they start	 AUTO REVERSE Automatically stops and reverses if a paper jam occurs	 MICRO SHRED Superior security and greater peace of mind for highly confidential documents
 SAFESENSE TECHNOLOGY™ Stops shredding when hands touch the paper opening	 SAFETY LOCK Disables shredder for added safety	 SILENT SHRED™ Ultra-quiet performance for shared workspaces	 ENERGY SAVINGS SYSTEM™ Reduces in-use energy consumption and powers down after periods of inactivity
 SLEEP MODE Powers down the machine after 2 minutes of inactivity	 AUTO OIL Lubricates the cutters automatically to enhance performance and extend shredder life	 CONTINUOUS DUTY Ideal for high volume shredding. The shredder is always ready for operation	 SMART LOCK™ Allows the user to lock the shredder to prevent access to documents when shredding

Auto Feed Shredders

AutoMax™ shredders offer a truly walk-away shredding experience, automatically shredding stacks of paper at the touch of a button. With Auto Feed shredders, productivity is the major benefit – ideal for users who regularly accumulate large volumes of paper and prefer to get all their shredding done in one go. They offer the convenience of allowing the user to continue working whilst shredding is in progress.

How Do You Shred?

You prefer to shred when you need to rather than letting documents accumulate to be shredded in a single session

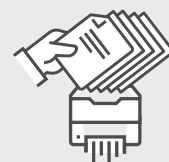

MANUAL ✓

You accumulate large volumes of paper and need to get it shredded in one go. You need to get on with your work whilst it is in progress

AUTOMATIC ✓

AutoMax™ 550C & 350C

- Ideal for office environments that regularly accumulate large volumes of paper waste
- Shreds capacity load in approximately 9 minutes (350C) and 13 minutes (550C)
- Smart Lock™ system allows the user to lock the shredder with a 4-digit PIN to prevent access to documents whilst shredding is in progress
- Also shreds CDs and credit cards (manual feed) and staples & paper clips

SMALLER PARTICLES MEANS
MORE BIN CAPACITY

1-3 USERS

AutoMax™ 200M

- Ideal for SOHO environments that require the time saving benefits of an auto feed shredder and greater peace of mind with micro-cut shredding
- Shreds documents into 2x14mm micro-cut particles – that's over 2000 particles per A4 sheet!
- Shreds a 200 sheet capacity load in approximately 6 minutes with a 12-minute duty cycle – up to 400 sheets of paper before a 30-minute cool down period

AutoMax™ 200C & 130C

- Automatic shredding at the desk side for maximum productivity
- Each machine shreds a capacity load in 5-6 minutes
- Shreds documents into 4x38mm cross-cut particles (Security Level P-4)

Personal Shredders

Powershred® 63Cb

- Jam preventing shredder with SafeSense® - for moderate personal use

Powershred® 62Mc

- Superior security shredder for the home & home office. Shreds each sheet of paper into over 2000 particles!

Powershred® 21Cs

- Medium duty shredder with pull-out bin and SafeSense® Technology

Powershred® 11C

- Cross-cut shredder with 11-sheet capacity and Safety Lock

Powershred® 60Cs

- Premium personal shredder with SafeSense® Technology

Powershred® 53C

- Entry level cross-cut shredder with large bin and CD shredding capability

LAMINATORS

Why laminate?

By adding a plastic coating to paper or card, a document becomes more durable with a quality, professional-looking finish. Lamination protects documents from fingerprints, smudges and tears and also enhances the colour and contrast of the print, keeping materials in like-new condition for many years. Laminated paper or card can be used for presentations, signage, re-usable displays, and preserving frequently accessed and important documents.

A laminated document looks better, lasts longer.

What to laminate?

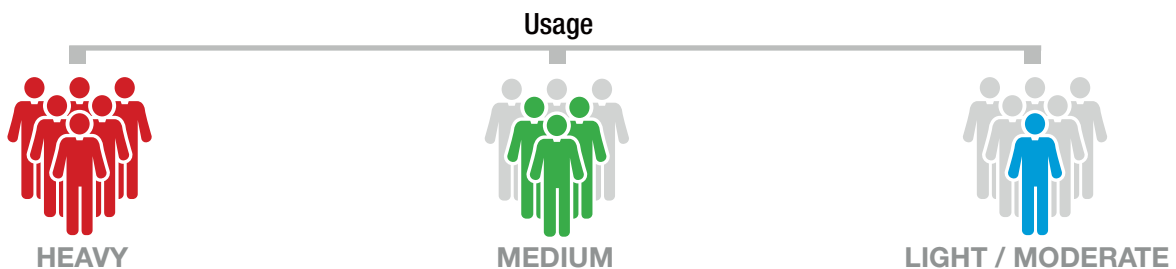

When it comes to laminating, the possibilities are endless. Whether you want to enhance the colours in your documents, capture the moment when laminating photos or preserve documents - Fellowes can provide the solution.

Choosing the right laminator

Fellowes laminators are segmented on usage; how often they are used and the thickness and size of pouch they accept. The thicker the pouches accepted, the more versatile the machine and the more applications for which it can be used.

USAGE: Where and how often will the laminator be used?

FEATURES: Which of the following features are required?

 Detects pouch thickness and self-adjusts to the optimal laminating setting	 Ready to laminate in as little as 30-60 seconds every time	 Clear Path mechanism, and pouch reverse / release features prevent jams when used with Fellowes pouches	 Powers down after periods of inactivity, reducing energy consumption
 Reduces the surface temperature of the laminator, ensuring it is safe to touch	 Allows immediate, manual switching between different pouch thicknesses	 Detects potential jams, stops laminating and allows user to reverse and realign the pouch	 Indicator light tells the user when the laminator is ready to accept the next pouch

Laminators

Fellowes laminators cover pouch thicknesses between 80 and 250 microns. The thicker the pouches accepted, the more versatile the machine and the more applications for which it can be used.

The table shows the pouch thicknesses which are accepted by each laminator:

	up to 80 micron	up to 100 micron	up to 125 micron	up to 175 micron	up to 250 micron

Large Office Laminators

HEAVY

Proteus A3 Laminator

- 6 roller technology heating 4 large diameter rollers for high quality results
- Fully variable controls + 6 pre-set controls for popular applications
- Laminates up to 95 cm/min (approx. 180x A4 pouches per hour)
- Ability to laminate hot and cold, with or without carriers, mounting board and foils

HEAVY

Voyager A3 Laminator

- AutoSense™ detects pouch thickness and self-adjusts to the optimal laminating setting
- Easi-Access mechanism allows the user to open the machine for cleaning and maintenance of the rollers ensuring consistent, high quality lamination
- Auto reverse function detects misfeeds and prevents jams

Office Laminators

Venus 2 A3 Laminator

- Laminates an 80 micron A4 pouch in as little as 18 seconds (110cm/min)
- Robust 6-roller laminator for superior lamination quality, can laminate all pouches up to 250 microns (2x250)
- Advanced Pouch Tracking System detects potential paper jams and automatically reverses, allowing the user to realign the pouch

Jupiter 2 A3 Laminator

- Laminates an 80 micron A4 pouch in as little as 24 seconds (75cm/min)
- Robust 6-roller laminator for superior lamination quality, can laminate all pouches up to 250 microns (2x250)
- Advanced Pouch Tracking System detects potential paper jams and automatically reverses, allowing the user to realign the pouch

Neptune 3 A3 Laminator

- Laminates an 80 micron A4 pouch in as little as 30 seconds (60cm/min)
- 4-roller laminator for high quality results, can laminate all pouches up to 175 microns (2x175)
- Advanced Pouch Tracking System detects potential paper jams and automatically reverses, allowing the user to realign the pouch

BINDERS

Why bind?

First impressions are important. When you've worked hard on a project and invested time and effort into your presentation, you need to give it the professional finish it deserves to make the greatest impact.

Binding is the perfect way to present your documents.

What to bind?

Use binding for a wide variety of document finishing tasks at work and at home. If it's important enough to present or securely fasten, add the finishing touch for a professional image.

TYPES OF BINDING SYSTEM

Different binding systems are suitable for different applications. Fellowes offer 3 types of system:

COMB BINDING

The most popular and economical binding system. It's practical, easy to use and very flexible.

- Cost effective and quick
- Documents are easy to use; they can be opened out flat so they are easy to read and photocopy. They are ideal for presentations
- Can add and remove pages easily

WIRE BINDING

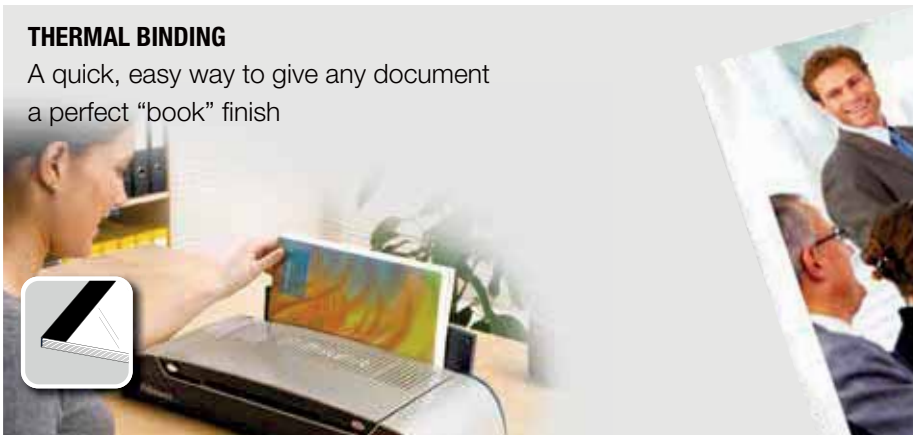

Stylish, durable wire binders with unique, user-friendly features. Gives your document a stylish, top-quality finish that is permanent and secure.

- Secure documents, cannot be reopened
- Creates the same durable look used by professional printers
- Documents can be opened out flat so they are easy to read and photocopy and are ideal for presentations

THERMAL BINDING

A quick, easy way to give any document a perfect "book" finish

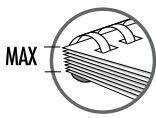

- Neat and flat, making them easy to store, carry around and post
- Quick and easy; ideal binding method when time is limited
- Create a professional finish without punching holes into your document

Comb Binding

CHOOSING THE RIGHT COMB BINDER

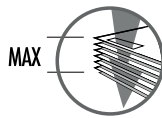

If you've decided that a comb binder is the best option, you should then look for features and specifications that will best match your needs. Fellowes comb binders are segmented according to how often they will be used and the size of the documents they can bind - measured on binding capacity, punch capacity and the maximum comb that can be accepted.

Binding Capacity

The higher the binding capacity, the larger the document you can bind.

Punch Capacity

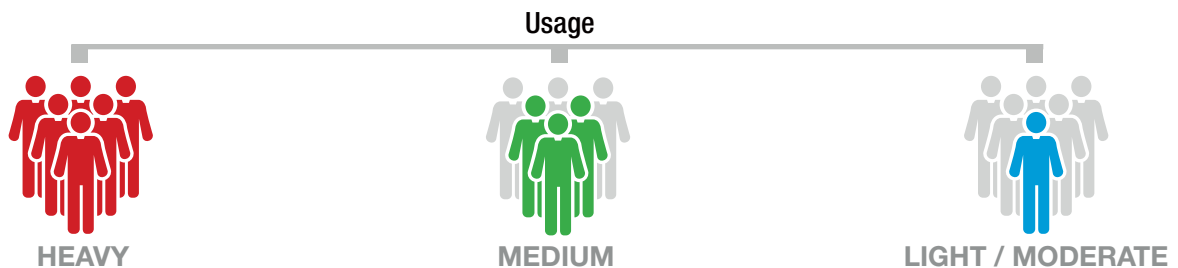

The higher the punching capability of the binder, the quicker the process. (Comb & Wire only).

Max. Element Size

Maximum comb diameter suitable for use with the binder. (Comb & Wire only).

USAGE: Where and how often will the binder be used?

FEATURES: Making the binding process simple

Maximum output punch and bind capacities increase productivity for faster binding

Vertical loading maximises document alignment

Punch and bind in one flow – punch and place documents directly on comb

Enhanced accuracy edge guide ensures pinpoint punch alignment

Document and comb measure / comb storage tray

TYPE: Manual or electric document punching?

ELECTRIC PUNCHING

Provides ultimate ease of use. Electric punch button makes it easier to punch through large documents and also work through large quantities of documents quickly.

MANUAL PUNCHING

Strong metal punch handle on Fellowes machines makes it easy to punch through documents by hand.

Comb Binders

Orion-E Electric & Orion Manual Comb Binders

- Designed to punch and bind documents for heavy duty users with demand for maximum punch and bind capacity
- Pedal operated punching for up to 30 sheets in a single cycle (Orion-E Electric)
- 21 individual and selectable punching pins
- Fully adjustable edge guide (side margin)
- 5 position back margin & document measure

Satellite SYSTEM

SATELLITE removable binding platform allows multiple users to punch and bind simultaneously, saving time in the work place.

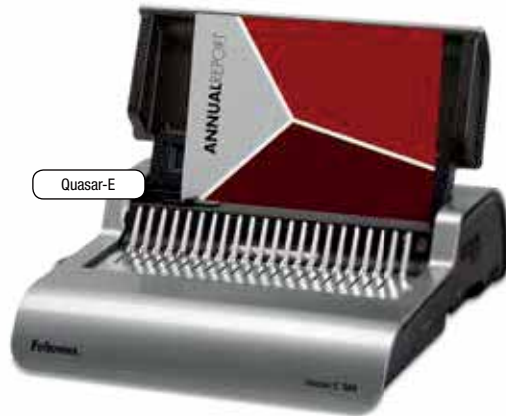

Galaxy-E Electric & Galaxy Manual Comb Binders

- For high volume binding documents of up to 500 pages
- 28 sheet punch capacity, 500 sheet binding capacity with a maximum comb size of 50mm
- Front access full size storage tray with patented comb & document measure for quick selection of the correct size supplies

Thermal Binders

A safety barrier designed to prevent accidental contact with the heating plate. The barrier is opened manually and closes automatically.

Switches to standby mode after periods of inactivity, reducing energy consumption.

Automatically detects thickness of documents to determine the correct heating time. (Helios 60 only)

HEAVY

MEDIUM

Helios 60 Thermal Binder

- Multiple documents up to 600 sheets (60mm max. per document) can be bound simultaneously
- ThermoSense automatically detects the thickness of documents to determine the correct binding cycle

Helios 30 Thermal Binder

- Multiple documents up to 300 sheets (30mm max. per document) can be bound simultaneously
- Variable binding cycle for different size documents

Trimmers & Guillotines

WHY USE A CUTTING SYSTEM?

Cutting machines enable the user to trim and cut large amounts of paper in one go. They are operated using one smooth movement which ensures precision cutting and a professional finish. They save time and effort and are an essential tool when working with large stacks of paper, books, and laminated documents. They are also ideal for print-outs of digital photographs.

TYPES OF CUTTING SYSTEM

ROTARY TRIMMERS

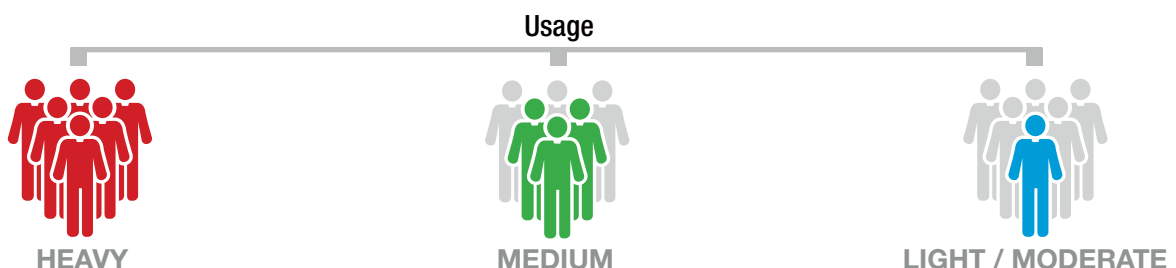

Ideal for cutting smaller stacks of paper. The round blade enclosed in a cutting head slides along a metal guide bar to create straight cuts. Widely used by photographers, graphics studios and schools.

GUILLOTINES

Ideal for cutting thick stacks of paper. A premium solution, designed for high-volume cutting. The leverage handle is brought down in one motion to cleanly cut through paper.

USAGE: How often will the Trimmer / Guillotine be used?

FEATURES Which of the following features are required?

Retractable safety blade

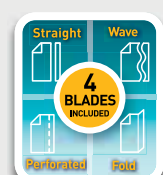

Precision LED safety guide

Protective safety guard

Encapsulated safety blade

Supplied with straight, wavy, perforated and fold blade types

Trimmers

Atom A3 & A4 Trimmers

- 30 sheet (80gsm) cutting capacity for high volume trimming
- Encapsulated stainless steel SafeCut™ blade for heavy duty applications

Gamma A3 & A4 Trimmers

- 20 sheet (80gsm) cutting capacity
- Encapsulated stainless steel SafeCut™ blade for heavy duty applications

Electron A3 & A4 Trimmers

- Cuts up to 10 sheets of paper (80gsm) at a time - ideal for the small office / home office
- Durable metal trimmer with 4 SafeCut™ Blades - straight, perforated, wavy, fold

Proton A3 & A4 Trimmers

- Cuts up to 10 sheets of paper (80gsm) at a time - ideal for the small office / home office

Neutron Plus A4 Trimmer

- Cuts up to 10 sheets of paper (80gsm) at a time - for home / home office use
- Supplied with 4 SafeCut™ Blades - straight, perforated, wavy, fold

Neutron A4 Trimmer

- Cuts up to 10 sheets of paper (80gsm) at a time - for occasional use

Neutrino Photo Trimmer

- Trims up to 5 sheets of paper (A5, 80gsm) at a time - ideal for hobby & craft use
- Extendable arm to support or measure A4 documents

Guillotines

HEAVY

HEAVY

Astro A4 Guillotine

- Cuts up to 50 sheets of paper (80gsm) at a time - for professional use
- High quality professional A4 guillotine designed for heavy duty applications
- Heavy weight metal base includes automatic safety guard
- High quality steel blade capable of cutting paper, carton and thin plastic film

Plasma A3 & A4 Guillotines

- Protective SafeCut™ safety guard - guillotine can only be operated when the guard is in place
- Cuts up to 40 sheets of paper (80gsm) at a time - for large office environments
- Heavy duty stainless steel blade - ideal for demanding cutting jobs

MEDIUM

MODERATE

Stellar A3 & A4 Guillotines

- Protective SafeCut™ safety guard - guillotine can only be operated when the guard is in place
- Cuts up to 20 sheets of paper (80gsm) at a time - for general office use
- Heavy duty stainless steel blade

Fusion A3 & A4 Guillotines

- Protective SafeCut™ safety guard - guillotine can only be operated when the guard is in place
- Cuts up to 10 sheets of paper (80gsm) at a time - an ideal entry level guillotine
- Quality stainless steel blade

Air Treatment

47 - 52

AeraMax® Air Purifiers

50 AeraMax® Personal

51 AeraMax® Baby

52 AeraMax® Pet

52 AeraMax® Replacement Filters

WHY DOES THE AIR NEED PURIFYING?

Studies indicate that indoor air can be up to five times more polluted than outdoor air*.

Combined with the fact that many people spend up to 90% of their time indoors, it starts to become clear why the quality of indoor air is so important.

* Environment Protection Agency

WHAT DO AIR PURIFIERS REMOVE FROM THE AIR?

There are many factors that contribute to poor indoor air quality. Some of the most common pollutants include mould spores, dust mites, chemicals (VOCs), pollen, germs and viruses. These all contribute to many of the allergies and respiratory illnesses we suffer from today.

Using an air purifier can actively reduce the number of airborne particles from your home or work environment, including the following common pollutants:

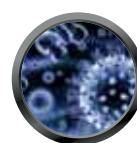

POLLEN

ODOURS

GERMS

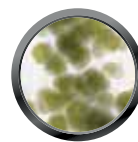

VIRUSES

DUST &
DUST MITES

PET DANDER

MOULD SPORES

OTHER
ALLERGENS

HOME

Even the cleanest homes will be harbouring potentially harmful airborne pollutants that could be reduced by using an air purifier.

WORKSPACE

The air you share with your colleagues could contain a number of potentially harmful pollutants.

WHY CHOOSE AERAMAX™?

The AeraMax® DX and DB Air Purifiers use a combination of the most effective filtration and cleaning methods as part of a 4-stage filtration process to remove 99.97% of airborne pollutants and particles down to 0.3 microns in size. This level of performance combined with the intelligent AeraSmart™ sensor technology, makes AeraMax® the perfect clean air solution.

PlasmaTRUE™ Technology
Creates an ionized field to help safely remove airborne pollutants.

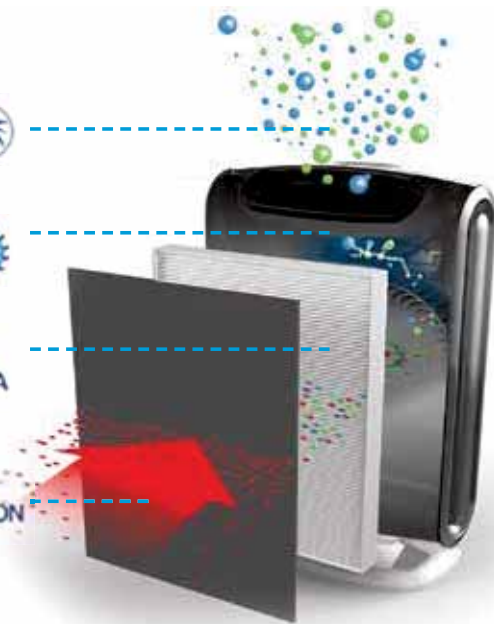

AeraSafe™ Antimicrobial Treatment
Built-in protection from the growth of odour causing bacteria, mildew, and fungi on the True HEPA filter.

True HEPA Filter
Captures 99.97% of airborne particles as small as 0.3 microns, including pollen, ragweed and other allergens, viruses, germs, dust mites and mould spores.

Carbon Filter
Removes odours, chemical vapours (VOCs) and captures large airborne particles.

ALLERGY UK

Scientifically proven to reduce exposure to pollen, mould, house dust mite, smoke, cat and dog allergens.

Smart Sensor Technology

An AeraSmart sensor monitors the air quality in your environment and automatically adjusts the fan speed to keep your air purified.

Energy Star

Energy Star-qualified air purifiers are 40% more energy-efficient than non-qualifying models.

WHO BENEFITS FROM USING AN AERAMAX® AIR PURIFIER?

Allergy & Asthma

City Dwellers

Cold & Flu

Pet Owners

Babies & Parents

AeraMax® Personal

**AeraMax® DX5 Air Purifier**

- Four-stage purification system captures 99.97% of airborne particles as small as 0.3 microns, including pollen and other allergens, dust mites, mould spores, pet dander and cigarette smoke
- AeraSafe™ Antimicrobial Treatment – built-in protection from the growth of odour causing bacteria, mildew and fungi on True HEPA filter
- AeraSmart™ Sensor monitors the air quality & automatically adjusts the fan speed to keep your air purified. Blue, amber and red lights indicate the purity of your air
- Aera+™ Mode is designed for peak allergy conditions & increases air flow by 35%* to remove allergens from your air
- Filter Change Indicators let you know when it is time to replace your Carbon and True HEPA filters
- The DX5 will deliver up to 5 air changes per hour in a 8m² room and 3 air changes per hour in a 12m² room

AeraMax® Baby

For air as pure as they are

Now that's a relief for baby and you

**AeraMax® DB5 Baby Air Purifier**

- Maximum protection for the air they breathe with a 4-Stage Purification system that protects air and reduces odour, allergens, mould spores, dust particles, viruses and germs, and nappy odours
- AeraSmart™ Sensor monitors the air quality and automatically adjusts the fan speed to keep your air purified
- Ultra quiet operation and night mode with dimmed lights for undisturbed sleep
- True HEPA filter with AeraSafe™ antimicrobial treatment safely removes 99.97% of airborne particles as small as 0.3 microns, including pollen, ragweed and other allergens, viruses, germs, dust mites, mould spores and cigarette smoke
- Child Lock allows you to lock the display panel to avoid accidental operation
- Filter Change Indicators let you know when it is time to replace your Carbon and True HEPA filters
- The DB5 will deliver up to 5 air changes per hour in a 8m² room and 3 air changes per hour in a 12m² room

AeraMax® Pet

Removing whiffs and reducing wheezes

Now that's a relief for pet owners

AeraMax® PT65 Pet Air Purifier

- Helps reduce odours and allergens from caged pets, litter boxes and pet dander
- Advanced pet odour removal - Double-thick carbon filter removes odours faster and more effectively
- HEPA filter safely removes 99% of airborne particles as small as 0.3 microns, including pet dander, allergens, mould spores and dust particles
- Fan Speed Indicator lets you manually adjust the fan speed setting – low, medium, or high
- Filter Change Indicators let you know when it is time to replace your Carbon or HEPA filter
- The PT65 will deliver up to 5 air changes per hour in a 21m² room and 3 air changes per hour in a 30m² room

ERGONOMIC WORKSTATION SOLUTIONS

A few easy adjustments to your customer's workstation can make a huge difference to their daily routine. Increasing comfort, health, performance and productivity. Help them to discover how they can prevent bad working habits and risks to ensure they stay productive and engaged in their work with the Fellowes **4 Zone Approach**® and range of ergonomic workstation solutions.

The Zones pinpoint health hazards and promote good posture across four key areas, for healthy working best-practice whether in a corporate office, home office or mobile office work environment.

The sequence to the Zones is based on the European Health & Safety legislation which states that adapting the workstation to meet the individual's needs should start with the chair, followed by hands, eyes and the rest follows.

ZONE1

PREVENT BACK TENSION

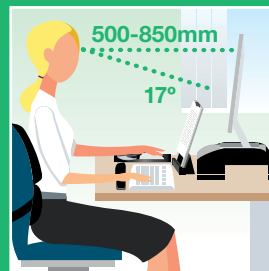

Sitting in a chair without proper support can cause poor circulation, back discomfort, and overall fatigue.

ZONE2

AVOID WRIST PRESSURE

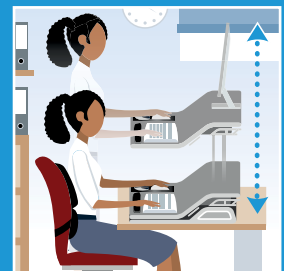

Typing on a keyboard or laptop, for hours at a time, can cause pain and discomfort to your wrists.

ZONE3

RELIEVE NECK STRAIN

Leaning forward and tilting your head up or down to see your computer screen can place strain on your neck and back.

ZONE4

REDUCE INACTIVITY

Alternate between sitting and standing to actively reduce the health risks of sedentary working such as heart disease, obesity, cancer and diabetes.

IMPORTANT INFORMATION FOR BUSINESSES

Bad working habits are bad for business.

Businesses have a legal obligation to ensure that employees are working safely and comfortably, whatever and wherever their location. It's the employer's legal obligation (EU Directive 90/270/EEC) to implement a **workstation risk assessment** when employing new people and for existing employees when their working environment changes (such as a change of position, job tasks, new desk or computer). To ensure you are looking after your employees and abiding by the law, please arrange for them all to undertake the Actively Working Well Assessment (a workstation risk assessment designed in accordance with the EU Directive) at **en.fellowestest.co.uk**. Don't break the law. **Get your employees working well.**

ERGONOMIC RANGES WITH UNBEATABLE FEATURES

We offer a comprehensive range of solutions to help your customers create a more comfortable, organised and productive workspace. Our products are designed to optimise their workspace, equipment and workflow to make their working life more straightforward, simpler and safer.

FIRA COMPLIANCE

FIRA International are an independent Ergonomic Accreditor.

This logo signifies that the relevant product complies with EU Health and Safety Legislation:

BS EN ISO 9241 Ergonomic requirements for office work with visual display terminals (VDT's): Part 5: 1999, workstation layout and postural requirements.

MICROBAN®

Items with this symbol feature Microban® anti-bacterial protection for active hygiene, helping to keep your office cleaner and healthier.

HEALTH-V™ CHANNEL

The patented Health-V™ Channel wrist support range helps relieve pressure on the median nerve to prevent wrist discomfort and injury.

ZONE 1 PREVENT BACK TENSION - Foot Supports

ZONE 4 REDUCE INACTIVITY - Sit-Stand Solutions

Sit-Stand Workstations and Work Platforms encourage desk-based staff to work actively rather than being sat unhealthily in one sedentary position for hours at a time.

Take steps to actively work well

Connect workspace with wellbeing, by adding more movement to the work day and combat the damaging physiological changes that can begin after as soon as 20 minutes in a seated position.

Fellowes® Sit-Stand solutions convert any desk into an active one, to alternate between sitting and standing whilst working and reduce health risks -

[join the movement today!](#)

ergo.fellowes.com

How much could a business save?

Investment in Sit-stand will future-proof the workforce against ill-health and help maintain business performance.

Find out how quickly Fellowes® Sit-Stand Workstations and Work Platforms pay for themselves, in terms of sick-days saved and productivity gains, with our Return on Investment Calculator.

Simply fill in some basic business details and then click for an instant calculation on the number of days it could take for this to pay the business back!

Workspace Essentials - Screen / Touchscreen Cleaning

99718 / 9971806

250ml Screen Cleaning Spray

- Ensures perfect streak free viewing
- Cleans any glass scanner bed, PDA, screen filter, CRT or TFT monitor and laptop screen
- Anti-static formula helps to eliminate the build-up of dust
- Minimum alcohol content; less than 1%

9907901 / 9907902

150ml Screen Anti-Run Gel

- A non-run screen cleaning formula suitable for laptop and LCD/TFT Screens
- Includes microfibre cloth
- Non-streak formula, anti-static properties
- Minimum alcohol content; less than 1%

9967404 / 9967405

25 Laptop Screen Cleaning Wipes

- 25 pre-moistened wipes in a reusable pack
- Non-streak formula, anti-static properties help to eliminate the build-up of dust
- Minimal alcohol content; less than 1%

9933501 / 9933502

20 Touch Screen Cleaning Wipes

- Ideal for cleaning tablet devices, smart phones and multimedia devices
- Contains 20 cleaning wipes
- Non-streak formula, anti-static properties
- Removes fingerprints
- 12 packs per outer attached to a clipstrip

99701

125ml Screen Cleaning Spray with 20 Absorbent Wipes

- Cleans any glass scanner bed, PDA, screen filter, CRT or TFT/LCD monitor and laptop screen
- Anti-static formula helps to eliminate the build-up of dust
- Minimal alcohol content; less than 1%

9974506

Microfibre Cleaning Cloth

- Microfibre cleaning cloth made from optical grade micro fibres
- Safely removes dust and dirt particles without the use of chemicals
- Re-usable/washable

— ONE SOLUTION —

Since 1917 BANKERS BOX® have been developing new and innovative storage solutions designed to help people improve organisation and productivity. With 100 years experience BANKERS BOX® is a recognised global leader in the filing and storage industry.

SELECTING THE CORRECT STORAGE SOLUTION

Selecting the correct document management product is important when establishing a filing system.

Here is a simple formula to help you decide:

- First** – determine how often you will access the contents
Second – determine how much space you have for storage

STORAGE UNITS

Desktop units which are ideal for when you have a limited amount of storage space and require frequent access to files.

TRANSFER FILES

Ideal for use with storage units for documents that are frequently required or with storage boxes for infrequent access or archival processes.

STORAGE BOXES

Ideal for use when you require infrequent access to files. Can also be used to transport files for off-site storage.

YOUR SITUATION	YOUR SOLUTION	STORAGE UNITS	TRANSFER FILES	STORAGE BOXES
Have limited space and no shelving	Stackable units offer space saving floor or desktop storage solutions	×		
Require easy, frequent access to files	Eliminates the need to un-stack and re-stack boxes	×		
Need to save time retrieving files	Storage units cut retrieval time in half. Transfer files offer spine labels for quick and easy identification	×	×	
Infrequent access to files	Less frequently accessed files can be stored in storage boxes which can be stacked to save space		×	×
Frequent moving and handling of records	Stronger boxes are designed for frequent moving and handling			×
Moving records to an off-site location for long term storage	Transfer files or lever arch files can be placed in storage boxes to maintain a filing system off-site		×	×
Lever arch files are used and need to be accessed regularly	Selected filing units are compatible with lever arch files and are ideal for frequent use	×		
Lever arch files need to be stored long term	Selected storage boxes are compatible with lever arch files and are ideal for long-term storage			×

FASTER, EASIER SET-UP

Selected products offer PRESTO™ instant assembly or FastFold® automatic assembly to save you time:

Manual Assembly

SUSTAINABLE, ENVIRONMENTALLY FRIENDLY PRODUCTS

The mark of responsible forestry

All BANKERS BOX® corrugated products are made from FSC® certified board and can be recycled. All inks used are water based and all adhesives are solvent free.

YOU NEED A BANKERS BOX®

Innovation in filing and storage for 100 years

1917

Present day

BY **Fellowes®**

System

For a complete modular storage system... YOU NEED A BANKERS BOX®

- Up to 50% stronger than basic strength boxes
- Medium & Heavy-Duty boxes available to meet all your needs
- 4 seconds set-up with FastFold® automatic assembly (that's up to 4 times faster than a manual box)
- Made using board from sustainable sources

Made from FSC® certified board

Selected products feature FastFold® automatic assembly saving you time

THIS ATTRACTIVE, MODULAR SYSTEM OFFERS THE FOLLOWING BENEFITS:

A modular system, tailored to meet individual needs: There is a BANKERS BOX® System product for every stage of a documents life. All products within the system are compatible, allowing you to develop a system to suit your personal needs.

No need to waste time re-filing for long term storage: Attractive BANKERS BOX® System will not look out of place in the office, and when a file is full, simply transfer into a box, drawer or stax file store.

Optimises use of space:

Selected items are suitable for stacking, providing compact, multi-level storage.

Ideal for use at home, in the office, or on the move:

Suitable for use in the home office, at work, or on the move between home and work for transferring files and paperwork.

Attractive colour options:

The BANKERS BOX® System range is available in grey or blue and white.

Use the compatibility chart below to locate the products that are most suitable for your needs.

Heavy-Duty ERGO

Heavy-Duty Boxes with Ergonomic Handles

- Box handles are engineered with a 30-degree angle, to create an ergonomically-friendly wrist position, reducing strain whilst lifting and carrying
- Ergonomic handles may encourage a good handling technique as highlighted in the The Manual Handling Operations Regulations 1992 – see <http://www.hse.gov.uk/toolbox/manual.htm>
- FIRA Ergonomic Excellence Award gained: “Ergonomically excellent products are likely to improve efficiency and productivity as well as eliminating or minimising the ill effects of twenty first century offices and work practices.”¹

Made from FSC® certified board

FELLOWES GIVE PROGRAM

In the effort to expand our support of community and culture through philanthropy, Fellowes has established the GIVE program. GIVE is dedicated to building local and global partnerships which address humanity's greatest needs. The programs' guiding principles align with our strong values as a company and are the hearts of our people. GIVE is committed to supporting initiatives in four key areas: Social Services, World Aid and Development, Education and Cancer Research. We are honored to work as a team in building strong communities, improving lives, and providing a better tomorrow for our world today.

SOCIAL SERVICES

GIVE reaches out to our local communities, lending volunteer support to those in need.

WORLD AID & DEVELOPMENT

GIVE sponsors causes around the world, aiding countries in need.

GIVE™

EDUCATION

GIVE builds greater opportunities for youth through education.

CANCER RESEARCH

GIVE supports medical research funding in the fight against life-threatening diseases.
